What to Expect:

During this drill our CERT, Ares/Races, and DART will be partnering with San Jose Water to open a drive-thru CPOD and distribute water to our residents.

What is a CPOD? *Community Points of Dispensing locations in which state and local agencies dispense needed items to the public during a public health emergency.*

As a volunteer (CERT, Ares/Races/DART/Water Company ETC...)

- How to open and run a CPOD and how it would benefit the community in the event of a disaster
- CERT's will experience working with mutual aid partners to distribute water to local residents via a drive thru set-up
- You will receive a reusable water bag to add to your emergency kit
