What to Expect: During this drill our CERT, Ares/Races. and DART teams will be partnering with San Jose Water to open a drive-thru CPOD and distribute water to our residents.

What is a CPOD? *Community Points of Dispensing, are community locations in which state and local agencies dispense needed items to the public during a public health emergency.*

Drive-thru Participants:

- Will receive a reusable water bag
- Arrive at the point of dispensing (LG Calvary Church Northside Parking area) and be directed to drive thru the parking area
- This is a quick practice drill to educate our community and our volunteer responders on how a CPOD is set-up and run and how our residents can pick-up needed items in an emergency.
